PROFESSIONAL SUMMARY

Early-career digital marketer building on hands-on projects in website development, SEO-focused content, social media, B2B digital presence, lead capture, and workflow automation. Combines customer-facing real estate experience and business operations with practical use of Google Search Console, Google Apps Script, Google Sheets, Make, and AI-assisted tools. Seeking an entry-level role across digital marketing, content, e-commerce, or marketing operations.

SELECTED PROJECTS

Real Estate Website & Customer Journey | hammadtherealtor.ca

- Relaunched and maintained a real estate website, addressing prior SSL/browser issues and working with Google Search Console on search indexing; created custom marketing graphics and content.
- Built a buyer questionnaire and Google Apps Script workflow that generates a personalized buyer blueprint PDF, emails the result, categorizes lead readiness, and records submissions in Google Sheets.

B2B Export Website & Content | castoreumcanada.ca

- Created a digital presence for a family friend's Canadian castoreum export business, with buyer-oriented product information, English/French content, quote-request and WhatsApp inquiry paths.
- Applied a business-focused approach to content hierarchy, product information, credibility, and inquiry conversion. Search and sales outcomes have not yet been measured.

Lead Capture & Booking Workflow Automation

- Designed a custom booking flow connected to calendar availability, confirmation emails, meeting links, and separate Google Sheets tracking for submissions and bookings.
- Used automation and AI-assisted tools to reduce manual handoffs and create a more organized lead experience.

CORE SKILLS & TOOLS

Marketing	SEO and SEM fundamentals, keyword-focused content, social media, copywriting/editing, lead generation, landing-page content, customer journey design
Operations	Lead capture and qualification, email workflows, booking journeys, spreadsheet tracking, workflow automation
Project tools	Google Search Console, Google Sheets, Google Apps Script, Make, Google AI Studio, ChatGPT, Claude, Muse, website builders, custom-built booking
Learning / familiarity	Google Analytics 4, Google Ads, Meta Business Suite, Canva, CapCut, Shopify, e-commerce and email marketing concepts
